

Price of Mesh Cable Tray Binding

AI Overview

Mesh cable tray ties typically range from \$1.65 per tie for small packs to around \$3-\$4 per tie for heavy-duty or industrial packs. Pricing Overview Amazon offers a 50-pack of wire mesh cable tray coupler kits for connecting tray sections, priced around \$50, which equates to approximately \$1 per connector for standard carbon steel couplers suitable for 4-6mm diameter trays. Walmart lists under-desk mesh cable management trays with integrated clamps starting from \$14.99 for smaller organizers, while larger or more robust trays with multiple tie points can cost \$26-\$47 per unit. Eaton/Tripp Lite ceiling hanging clips for wire mesh trays come in 50-pack sets, priced in the \$50-\$60 range, designed for industrial or data center installations. CableOrganizer.com and Infinity Cable Products provide bulk Velcro or reusable cable ties for mesh trays, with prices starting around \$1.65 per tie for 50-count packs and up to \$15-\$20 for longer or heavy-duty straps suitable for larger cable bundles. Newegg also lists cable tray ties, though specific prices vary depending on type and pack size, generally aligning with the \$1-\$3 per tie range.

Factors Affecting Price

Material: Carbon steel, electro-galvanized, or powder-coated metal ties are more expensive than plastic or Velcro options.

Pack Size: Larger packs reduce the per-tie cost. For example, a 50-pack of standard couplers is cheaper per unit than a 10-pack of heavy-duty clips.

Application: Industrial-grade or ceiling-hanging clips for data centers cost more than simple under-desk cable organizers.

Reusability: Velcro or hook-and-loop ties are reusable and slightly more expensive per unit than single-use plastic ties.

Recommendation For home or office use, Velcro or small metal coupler packs are cost-effective, typically \$1.65-\$3 per tie. For industrial or data center applications, heavy-duty clips or couplers may cost \$50-\$60 per 50-pack, providing durability and compliance with safety standards. By comparing pack sizes, material, and intended use, you can select the most cost-effi...
