

Price of a complete set of cable tray elbow accessories

AI Overview

The price of a complete set of cable tray elbow accessories varies widely depending on material, size, and manufacturer, typically ranging from \$50 to several hundred dollars per set. Components of a Complete Set A complete set of cable tray elbow accessories generally includes: Horizontal and vertical elbows (inside and outside bends) to change the direction of cable trays Reducer elbows for transitioning between different tray widths Supporting brackets and clamps to secure the elbows to walls or ceilings Bolts, nuts, and fasteners for assembly Covers or protective plates if required for ladder or ventilated trays These components are available in materials such as galvanized steel, stainless steel, aluminum, or fiberglass-reinforced plastic (FRP), which influence both durability and cost.

Factors Affecting Price

Material: Stainless steel and FRP are more expensive than galvanized steel or aluminum.

Size and Tray Width: Larger trays require larger elbows and more robust supports, increasing cost.

Quantity: Buying in bulk or as a full set may reduce per-piece cost.

Manufacturer and Brand: Premium brands like Legrand, Schneider Electric, or Phoenix Contact may charge higher prices for quality and certification.

Customization: Custom-fabricated elbows for unique angles or dimensions will increase the price.

Estimated Price Range

Small standard sets (for 4-6 inch trays, basic galvanized steel): approximately \$50-\$150 per set

Medium-duty sets (for 12-18 inch trays, stainless steel or aluminum): approximately \$150-\$400 per set

Heavy-duty or custom sets (large industrial trays, FRP or specialized angles): can exceed \$500 per set

For accurate pricing, it is recommended to contact suppliers directly such as RS Components, J LH Electric, or local distributors, as prices fluctuate based on material, quantity, and shipping.

Recommendation When budgeting, consider not on...
