

Price of aluminum cable trays for communication equipment rooms

Overview

Steel trays typically cost between \$10-\$30 per meter, while aluminum trays range from \$20-\$50 per meter. Custom or coated trays may have higher pricing. Why do cable tray prices fluctuate?

Raw material costs, demand, competition, and supply chain. An aluminium cable tray is a vital component in modern electrical infrastructure, providing structured and secure routing for power, control, and communication cables. Known for its lightweight nature, corrosion resistance, and non-magnetic properties, aluminium is widely used across industrial. Discover aluminum cable trays with CE certification, ideal for indoor, outdoor, and industrial cable management. Perfect for durable, corrosion-resistant installations. With same-day shipping, we reach most of the United States within one day. Phone, email and chat support available. We not only have our own warehouse and production workshop, but also have a huge galvanizing plant.
