

# Price of cable tray support and suspension rod

## AI Overview

Cable tray suspension rods typically range from \$5 to \$30 per rod depending on material, length, and supplier. Overview of Cable Tray Suspension Rods Cable tray suspension rods are used to securely suspend cable trays from ceilings or structural supports. They are commonly made from galvanized steel, stainless steel, or aluminum, and are available in various lengths, such as 1 m, 2 m, or 3 m for threaded rods. These rods are often paired with nuts, washers, and brackets to form a complete suspension system. Typical Pricing Standard threaded rods (M6, M8, M10): Prices generally range from \$5 to \$15 per rod for lengths between 1 m and 3 m, depending on material and finish. Complete suspension kits (including rod, nuts, brackets, and clips) can cost \$20 to \$30 or more per kit, especially for heavy-duty or professional-grade systems designed for commercial or industrial use. Stainless steel trapeze brackets with rods for cable trays up to 100 mm wide are priced around \$25-\$30 per unit, offering corrosion resistance and pre-assembled convenience. Factors Affecting Price Material: Stainless steel rods are more expensive than galvanized steel due to corrosion resistance. Length and diameter: Longer or thicker rods increase cost. Supplier and bulk orders: Buying in bulk or from wholesale suppliers can reduce per-unit cost. Included accessories: Kits with brackets, nuts, and washers are more expensive than rods alone. Where to Buy City Electric Supply: Offers suspension kits and accessories for ceiling-mounted cable trays. Channel and Tray: Provides M6 threaded rods in 1 m, 2 m, and 3 m lengths with bulk order discounts. JLH Cable Tray: Supplies a wide range of cable tray fittings, including suspension rods and brackets at competitive factory prices. DirectChannel UK: Offers stainless steel trapeze support brackets with rods for professional installations. Made-in-Chin...
