

Price of electrical distribution box repair service

AI Overview

The cost to repair or replace an electrical distribution box typically ranges from \$350 to \$6,000 depending on panel size, amperage, location, and complexity.

Typical Cost Ranges

- Basic residential repair or replacement: \$350–\$900 for a 100–125 amp indoor panel with standard wiring and a few new breakers (materials, labor, and permits included)
- Mid-range upgrades: \$1,200–\$2,500 for a 100–125A indoor panel or \$1,200–\$2,000 for a 200A panel with additional circuits and safety upgrades
- High-end or complex installations: \$3,000–\$6,000 for a 200A outdoor panel with new meter socket, smart meters, or extensive rewiring

Cost Components

- Materials:** \$100–\$800 depending on panel size, amperage, and enclosure type
- Labor:** \$300–\$1,400, typically 6–18 hours depending on project scope and wiring complexity
- Permits:** \$50–\$300, varying by local regulations
- Waste/Disposal:** \$25–\$100 for old panel removal

Factors Affecting Price

- Amperage and panel size:** Higher amperage panels (200A) cost more than standard 100–125A panels
- Indoor vs outdoor installation:** Outdoor panels require weatherproof enclosures, increasing cost
- Complexity of wiring:** Long or difficult wiring runs, conduit rerouting, or structural modifications raise labor costs
- Upgrades and safety features:** Smart monitoring, modular designs, or code compliance improvements add to the total price
- Regional labor rates:** Urban areas or regions with higher permit fees may increase overall costs

Additional Notes

- Subpanels:** Adding or replacing subpanels can cost \$400–\$2,000
- Circuit breakers:** Individual breaker replacement is cheaper, typically \$5–\$20 per switch, with total labor around \$100–\$200
- Relocation:** Moving the panel can add \$1,000–\$3,000 depending on distance and complexity

In summary, a simple repair or replacement may cost a few hundred dollars, while full upgrades or high-capacit...
