

Price of fiber optic cable laying in New Zealand

Overview

Most fibre installations are determined to be 'standard' installs with no installation cost to you. New Fibre installs require the Fibre optic network cable connections to be laid from the property boundary to the exterior wall of your home, and then an ONT box to be installed on an interior wall. This. Fibre installs are currently covered under the government's Ultra-Fast Broadband initiative. Some local fibre companies will have criteria on what's deemed standard, but generally speaking if your. With Nova's Broadband Plan's there are no additional charges for standard Fibre installs and upgrades. Your broadband is delivered via Wireless Broadband (over Spark's 4G and 5G networks) or Fibre (over the Fibre network). Spark will select the most appropriate technology for you based on what's available at your address. A standard fibre installation to a residential home doesn't usually cost anything – although it's worth noting that some internet providers do charge a setup fee.
