

Price of pure electric optical cable traction machine

AI Overview

The cost of a pure electric optical cable traction machine typically ranges from \$2,000 to \$15,000 or more, depending on capacity, features, and supplier. Price Range and Factors Electric optical cable traction machines vary widely in price based on their pulling capacity, automation level, and additional features. Smaller, basic models suitable for short-distance or low-capacity cable pulling may start around \$2,000–\$5,000. Larger, fully automated machines capable of handling long-distance, high-core-count cables can cost \$10,000–\$15,000 or higher. Key factors influencing cost include:

- Traction capacity:** Machines designed for heavier or larger-diameter cables require stronger motors and reinforced structures, increasing price.
- Automation features:** Automatic threading, cable tension control, and overhead or buried cable handling add to the cost.
- Build quality and certifications:** CE-certified machines with overload, overvoltage, and short-circuit protection are generally more expensive.
- Supplier and shipping:** Machines sourced from international suppliers may include shipping, customs, and import fees, affecting the final cost.

Typical Applications These machines are used for:

- Pulling fiber optic cables in tunnels, ducts, or overhead lines
- Laying high-core-count cables for telecommunications and network infrastructure
- Reducing labor costs by replacing manual cable pulling with mechanical traction

Purchasing Options Alibaba and Made-in-China: Offer a wide range of models with direct supplier contact for quotes. eBay: Provides new and sometimes used machines with financing options, though prices vary by seller and model. In summary, the exact cost depends on the machine's specifications and supplier, but for a standard pure electric optical cable traction machine, you can expect to pay between \$2,000 and \$15,000, with higher-end models for industrial-scale projects e...

Cable Tractors Fiber Optic Cable Duct Rod Pusher

Cable Tractors Fiber Optic Cable Duct Rod Pusher Cable Pulling Traction Machine, Find Details and Price about Cable Duct Rodder and Underground Cable Pulling

Optical Cable Traction Machine Optical Cable Traction Machine ...

The optical cable traction machine can save 2 people, and the pulling force is equivalent to that of 4-5 adults. It can push the threader, pull the optical cable, and can be operated overhead or underground

Electric Optical Cable Pulling Machine Fiber Cable Tractor Traction ...

This product has acquired the relevant product qualification (s)/license (s) of certain applicable country/countries. View more. Shipping fee and delivery date to be negotiated. Chat with supplier

Fiber Optic Cable Tractor Traction Machine Optical Cable Puller pulling ...

Fiber Optic Puller used for the construction of fiber optic cable pipelines. It can adapt to the propulsion and recovery of 5-45 optical cables or

Fiber Optic Cable Pulling Traction Machine

Fiber Optic Cable Pulling Traction Machine Fiber Optic Cable Pulling Traction Machine. It's very common for municipalities and telecom enterprises to carry out

Optical Fiber Cable Pulling Traction Machine, Fiber Optic Cable

Optical Fiber Cable Pulling Traction Machine, Fiber Optic Cable Tractor, multitude of Cable Conveyor factories, Cable Tractor wholesalers, distributors & traders. Get Latest Price / trusted supplier List

Optical Fiber Cable Tractor

High-Traction Power: This Optical Fiber Cable Pulling Traction Machine boasts a traction force of over 8000N, ensuring effortless cable pulling in various environments, including rugged terrain and tight

Verified Supplier Cable Traction Machine Optical Cable Tractor ...

Shop high-quality cable traction machines for reliable performance in various applications. Find durable, efficient, and cost-effective solutions from trusted suppliers.

Optical fiber cable pull traction machine, fiber optic cable tractor

Fiber optic cable tractors is a electric machine for laying power cable (or communication cable). It can be used with cable tractor, hoist and other cable laying machine, this can save to man power and

Fiber Optic Cable Pulling Machine

Find reliable fiber optic cable pulling machines for efficient cable management. Shop our range of durable, high-performance solutions for various applications.

Fiber Optic Cable Tractor Traction Machine Optical

Fiber Optic Puller used for the construction of fiber optic cable pipelines. It can adapt to the propulsion and recovery of 5-45 optical cables or cable cables. The speed

High Quality Cable Pulling Machine Duct Optic Cable Tractor Fiber ...

The optical cable pulling machine can save 2 workers, and its pulling force is equivalent to that of 4-5 adults. It can push the threader and pull the optical cable, and can be operated in overhead or
