

Price per unit of optical cable connector

AI Overview

Fiber optic connector prices range from around \$0.20 to over \$180 per unit depending on type, mode, and installation readiness.

Typical Pricing by Connector Type

- Standard SC, LC, ST Connectors:** Basic single-mode or multimode connectors typically cost \$0.20 to \$2.50 per unit for bulk or standard retail purchases, depending on fiber type and polish (UPC or APC) and whether they are pre-assembled or field-installable (Fiber Savvy, Cables Plus USA, DigiKey).
- Pre-Polished Field Installable Connectors:** Kits like the Senko XPFit Plus or Corning UniCam connectors, which allow quick field termination, range from \$108 to \$180 per kit for multiple connectors, translating to roughly \$9–\$15 per connector when purchased in packs of 12.
- MIL-SPEC or Ruggedized Connectors:** Military-grade ST or SC connectors designed for harsh environments cost \$20 to \$92 per unit, depending on mode (single-mode or multimode), locking mechanism, and ferrule material (zirconia or stainless steel).
- Bulk Packs:** Large packs of 100 connectors, such as SC APC quick connectors, can reduce the per-unit cost to \$0.90–\$1.50 per connector for single-mode applications.

Factors Affecting Price

- Fiber Mode:** Single-mode connectors are generally slightly cheaper than multimode connectors due to simpler core alignment requirements, but multimode connectors may require higher-grade cores for data center applications.
- Polish Type:** APC (angled physical contact) connectors are more expensive than UPC (ultra physical contact) due to lower insertion loss and better reflection performance.
- Installation Readiness:** Pre-terminated or field-installable connectors cost more than standard connectors that require fusion splicing or manual termination.
- Material and Durability:** Ruggedized or armored connectors for outdoor or military use increase the price significantly.
- Volume Discounts:** Purchasing in bulk (e.g., 100+ units) can reduce the per-unit cost by 20–50% compared to single-unit retail pricing.

Summary

- Low-cost standard connectors: \$0.20–\$2.50 per unit
- Field-installable kits: ...
