

Quotation for 40G laser diode

AI Overview

You can request a quotation for the 40G laser diode (RLT1300-40G) directly from authorized distributors like GoPhotonics, Mouser, or DigiKey.

Product Overview

The RLT1300-40G from Roithner Lasertechnik is a laser diode with the following key specifications:

- Wavelength: 1270–1330 nm
- Output Power (CW): 0.04 W
- Threshold Current: 30–45 mA
- Operating Current: 0.16–0.18 A
- Package Type: Standard laser diode package suitable for integration in optical systems.

This diode is suitable for applications such as fiber-optic communications, sensing, and optical metrology.

How to Request a Quotation

GoPhotonics: You can request a quote for the RLT1300-40G directly on the product page by filling out the quotation form. This will provide pricing, lead time, and shipping options.

Mouser Electronics: Mouser is an authorized distributor for multiple laser diode manufacturers. You can check stock availability, request a quote, or place an order online.

DigiKey: DigiKey offers a wide selection of laser diodes and modules. You can view inventory, request pricing, and order online for same-day shipping if available.

Additional Considerations

Lead Time: Depending on stock and supplier, lead times may vary. Contacting the distributor directly ensures accurate delivery estimates.

Technical Support: Authorized distributors often provide datasheets, application notes, and technical support for integration.

Bulk Orders: For larger quantities, requesting a formal quotation may yield better pricing and shipping terms.

For the most accurate and up-to-date pricing, it is recommended to submit a quote request through GoPhotonics or contact Mouser/DigiKey sales representatives directly.
