

# Ranking of Secondary Distribution Boxes in Eastern Europe

## AI Overview

While there is no publicly available ranking of individual secondary distribution boxes, the leading Distribution System Operators (DSOs) in Eastern Europe manage the most significant secondary distribution infrastructure. Key Distribution System Operators in Eastern Europe

Secondary distribution boxes are typically managed by DSOs, which operate the medium- and low-voltage networks connecting substations to end consumers. In Eastern Europe, prominent DSOs include:

- PGE Dystrybucja (Poland)** – One of the largest DSOs in Poland, managing extensive secondary distribution networks and modernizing infrastructure for smart grid integration.
- CEZ Distribuce (Czech Republic)** – Operates a wide network of secondary distribution systems, focusing on reliability and renewable energy integration.
- E.ON Distribuce (Czech Republic and Slovakia)** – Manages secondary distribution networks with advanced monitoring and automation technologies.
- EVN Bulgaria and EVN Macedonia** – Key operators in Bulgaria and North Macedonia, responsible for secondary distribution and grid modernization.
- Hrvatska Elektroprivreda (Croatia)** – Oversees secondary distribution boxes and low-voltage networks, implementing smart metering and grid automation.

**Trends in Secondary Distribution Infrastructure**

- Smart Grid Deployment:** Many Eastern European DSOs are upgrading secondary distribution boxes with smart meters and remote monitoring to improve efficiency and reliability.
- Renewable Integration:** Secondary distribution networks are increasingly adapted to handle distributed energy resources like solar and wind, requiring advanced control systems.
- Regulatory Support:** EU directives encourage DSOs to invest in modern secondary distribution infrastructure to meet climate neutrality goals by 2050.

**Market Insights** While individual secondary distribution boxes are not ranked, DSO performa...
