

Recommended galvanized cable trays frames from the UK

AI Overview

For durable and corrosion-resistant cable management in the UK, consider pre-galvanised or hot-dip galvanised steel cable trays from suppliers like Direct Channel, Lenson Select, Edwardes, and CEF. Key Options and Suppliers

1. Direct Channel offers a wide range of cable trays suitable for light, medium, and heavy-duty applications. Their trays are available in pre-galvanised and hot-dip galvanised finishes, with widths from 50mm to 600mm and lengths of 1m or 3m. Accessories include couplers, bends, tees, crossovers, lids, and adjustable risers, ensuring full system integration for both internal and external installations.
2. Lenson Select provides pre-galvanised and hot-dip galvanised steel trays, with stainless steel available on request. They supply light, medium, and heavy-duty trays, along with a full range of brackets, strut channels, and cable baskets. Lenson also offers custom cutting services for bespoke installations.
3. Edwardes Cable Tray stocks light, medium, and heavy-duty galvanised trays in 3m lengths, with return edges of 12mm, 25mm, and 50mm respectively. They also provide bends, tees, crossovers, and stand-off brackets, with next-day UK delivery available.
4. CEF supplies pre-galvanised and post-galvanised steel trays for light, medium, and heavy-duty applications. Their trays are designed for industrial and commercial use, offering robust support and organisation for cables in demanding environments.
5. Voltimum UK highlights hot-dip galvanised trays for outdoor and corrosive environments and pre-galvanised options for standard indoor installations, suitable for both power and communication cabling.

Considerations for Selection

Duty Rating: Light-duty (12–15mm edge), medium-duty (25mm return edge), heavy-duty (50mm return edge) depending on cable load.

Finish: Pre-galvanised for indoor use; hot-dip galvanised for outdoor or corrosive environments...
