

SATA Power Distribution Box

Overview

Will work with both 3-pin and 4-pin fans. The hub connects to a standard SATA power cable and distributes power to six 3-pin headers. Using a SATA power distribution board, you can easily extend your NAS setup by connecting up to four drives from a single SATA power line, provided your PSU supports the required wattage. This cost-effective method ensures stable power delivery without affecting performance or requiring a PSU. The SATA Power Distribution PCB 8xWay Block is the perfect organizational solution for hard core modder's, water cooling enthusiasts and other power users that use a large amount of cooling fans in their systems or servers. Why use clumsy Y splitters that just add to cable clutter when you can have. upHere 10-Port 6PIN SATA RGB Hub with 21-Key Remote Control/Splitter for 6-Pi. I nice clean power hub seems a logical. Power-in connections:.
