

Sc-Ic Multimode Dual-Core Fiber Optic Patch Cord

Overview

OM1 LC SC Duplex Fiber Patch Cable 62. Terminated with durable LC and SC ceramic ferrule connectors, this high bandwidth multimode cable has Corning optical fiber glass for high speed, low loss, data transmission. Efficient bi-directional transmission: Dual-core design supports independent bi-directional communication (single-core transmitter, single-core receiver), eliminating the need for additional patch cords, simplifying cabling structure, and enhancing transmission efficiency. Flexible Interface. They comprise two tight buffer fibres housed within an Individual outer jacket in OM1, OM2, OM3, OM4, OS1, OS2 multi-mode and single mode variants. A professional. This 50/125µm OM4 SC To LC Multimode fiber optic cable features an extremely high bandwidth, suitable for high throughput enterprise networks, telecomm rooms, server farms, and cloud storage network applications. It is ideal for connecting 10G SR, 10G LRM, SFP+ transceivers, etc. for 10G/40G/100G. Fiber Optic Patch Cords are short distance fiber optic cables capped with connectors at both ends in order to facilitate the connection between devices within a limited distance. There are different. Fiber Patch Cord, LC/UPC/UPC to LC/UPC/UPC, Multimode OM4, 1. Configure and display product variants of FFXLCLC42 by selecting options No configured items found.
