

Security Monitoring Power Distribution Box Voltage

High Quality Aluminum Housing with Compact Size

- Sturdy and Durable
- Anti-corrosion

Overview

Engineered for commercial security deployments, this UL Listed power supply provides consistent 12V DC output across nine independent channels, each protected by individual PTC fusing for maximum system reliability and simplified troubleshooting. Selecting the correct security power supply is critical to ensuring uninterrupted operation of security cameras, sirens, access control systems and other critical components. Through the new generation of Internet of Things communication technology, the cloud integration of data such as voltage. - 18-Channel 12V Power Supply Box: Perfect for CCTV systems, this CENTROPOWER unit offers expanded power distribution with multiple outputs for versatile connectivity. - PTC Fuse Protection: Built-in PTC fuses provide reliable overcurrent protection, safeguarding your cameras and devices from. {Safety} Lightning protection, overload protection, short circuit protection. Each port has a separate fuse and a separate LED indicator. With 5A maximum output and 60W total power, it supports up to 2.
