

Senegal Telecom 288-core Optical Fiber Distribution Box

Overview

This 288-core smc outdoor floor-mounted splice box not only meets diverse fiber optic cable access needs, but also supports a wide range of connectors and cassettes. Whether it is 288-core floor-standing fully equipped fc (cold-rolled steel plate), 288-core smc. Fiber distribution cabinet is used outdoors trunk interface device connecting to the cable and distribution cable, and can provide the connection between backbone cables and wiring cable. It can achieve a direct connection and cross-connect between the trunk cable and wiring cable with the function of. FTTH fiber distribution box with 288 cores for FTTx networks. 288 core catering various optical deployment. FTTH Box comply with salt spray test, crush test and temperature cycling under international standard. FDCs are typically installed in outdoor settings, such as on the side of a building or in an underground vault, and are used to distribute fiber optic cables to multiple buildings. Looking for a durable and high-performance fiber optic distribution box?

check out our carrier-grade smc outdoor floor-mounted distribution box! with a capacity of 288 cores and a variety of accessory configurations, it's the perfect choice for your needs. This fiber optic splice closure will impress.
