

# Singapore Galvanized Cable Tray Reference Price

## AI Overview

Galvanized cable trays in Singapore typically cost between SGD 20 to SGD 80 per meter, depending on material, size, and load capacity.

**Price Range and Factors**

The cost of galvanized cable trays varies based on several factors:

- Material and Coating:** Hot-dipped galvanized (HDG) trays or GI (galvanized iron) trays are common. HDG trays are more corrosion-resistant and slightly more expensive than standard GI trays.
- Tray Type:** Ladder, perforated, or wire mesh trays have different manufacturing costs. Ladder trays generally cost more due to heavier construction.
- Load Capacity:** Light-duty trays (supporting smaller cable bundles) are cheaper, while medium and heavy-duty trays designed for industrial loads are more expensive.
- Size and Dimensions:** Wider and deeper trays that accommodate more cables cost more per meter.
- Supplier and Brand:** Prices vary between suppliers such as HardwareCity, AE Hub, Ferrotech, and NEXE, and bulk orders may attract discounts.

**Typical Costs**

- Light-duty GI trays: SGD 20–35 per meter
- Medium-duty HDG trays: SGD 35–55 per meter
- Heavy-duty or large industrial trays: SGD 55–80+ per meter

**Additional Considerations**

- Installation:** Some suppliers offer pre-cut trays or accessories like covers and brackets, which may add to the total cost.
- Compliance:** Ensure trays meet local standards such as IEC, NEMA, or Singapore's SS249 for safety and durability.
- Delivery:** Many suppliers in Singapore provide next-day delivery for standard sizes, which can affect overall project cost.

For precise pricing, it is recommended to request a quote from local suppliers like HardwareCity, AE Hub, Ferrotech, or NEXE, specifying the tray type, size, and quantity required.
