

Sri Lanka CIF price 8-figure optical cable 4 cores

AI Overview

The CIF price for a 4-core optical fiber cable in Sri Lanka depends on cable type, supplier, order volume, and shipping, and must be obtained directly from suppliers for accurate figures. Factors Affecting CIF Pricing

Cable Type and Construction Optical cables vary by application: indoor, outdoor, armored (GYTS/GYTA), aerial (ADSS), or drop cables. The construction affects durability, installation ease, and cost.

Core Count and Capacity A 4-core cable is typically used for small-scale distribution or drop connections. While fewer cores reduce material costs, specialized 8-figure branded cables may carry premium pricing.

Supplier and Manufacturer Major suppliers in Sri Lanka include ACL Cables, Eastlink.lk, and online marketplaces like Daraz.lk. ACL is the largest manufacturer with extensive local experience, which can influence reliability and pricing.

Minimum Order Quantity (MOQ) and Volume Discounts MOQs range from 1 km to 10+ km. Larger orders often receive discounts, sometimes up to 25% for bulk orders, which affects the CIF price.

CIF Components CIF pricing includes: Cost of the cable from the manufacturer, Insurance during transit, Freight charges to Colombo port, Customs duties and local handling fees.

Supplier Reliability and Compliance Ensure the cable meets Sri Lanka Standards (SLSI) and check supplier track records, review scores, and reorder rates to avoid delays or quality issues.

How to Obtain Accurate CIF Pricing Contact suppliers directly with specifications: 4-core, 8-figure optical cable, required length, and intended use (indoor/outdoor). Request a CIF quote to Colombo port, including insurance and freight. Compare multiple suppliers for volume pricing, delivery timelines, and warranty. Consider local distributors like Eastlink.lk or ACL for verified products and support.

Summary While exact CIF prices fluctuate based on supplier, order size, an...
