

Standard for Display Cabinets

Overview

By combining requirements historically found in UL 65 – the Standard for Wired Cabinets – and UL 962 – the Standard for Household and Commercial Furnishing, UL 970 provides streamlined, modernized requirements for today's innovative display designs. During this time, displays have undergone many innovations such as embedded computers, motion and LED lighting. UL Standards continue to be the industry benchmark for commercial displays. Previously. Enhance the beauty and functionality of your home with stylish cabinets and cupboards suited for every space. Display cabinets are furniture pieces designed to showcase and protect collectibles, decorative items, or personal treasures. Typically made of wood or metal, they often feature glass panels or doors to offer a clear view of the contents while keeping them dust-free.
