

Sudan wholesale price for optical fiber cable G 657A1

AI Overview

Wholesale G.657A1 optical fiber cable prices typically range from \$0.20 to \$0.50 per meter, depending on core count, specifications, and supplier, with additional shipping and import costs for Sudan. General Pricing Overview G.657A1 is a bend-insensitive single-mode fiber optimized for O-E-S-C-L bands (1260–1625nm) and widely used in FTTH and high-density network deployments. International wholesale prices for standard G.657A1 cables vary based on fiber type, core count, and packaging: Single-core or low-core cables (1–24 cores): approximately \$0.20–\$0.35 per meter. High-density cables (144 cores or more): around \$0.40–\$0.50 per meter. Prices may fluctuate due to silica costs, energy prices, and global supply chain factors. Considerations for Sudan Import and shipping costs: Freight, customs duties, and local taxes can significantly increase the final price. Minimum order quantities (MOQ): Many suppliers, such as Winncom and Alibaba vendors, require MOQs for wholesale orders. Supplier selection: Chinese manufacturers dominate global supply, offering competitive pricing and OEM customization. Recommendations Contact multiple suppliers on platforms like Alibaba or Winncom to request quotes including shipping to Sudan. Specify cable requirements: core count, jacket type, indoor/outdoor use, and length to get accurate pricing. Consider local distributors: Some regional telecom suppliers may stock G.657A1 fiber, potentially reducing shipping costs and lead time. By combining international wholesale rates with Sudan-specific logistics, buyers can estimate a total landed cost and plan procurement for network projects efficiently.
