

Sudanese photovoltaic distribution box installation manufacturer

AI Overview

Several Sudanese solar companies provide PV components and systems, including distribution boxes, inverters, and batteries, suitable for residential, commercial, and industrial solar projects.

Key Companies in Sudan

- 1. AEMIT** AEMIT, founded in 2018 as a subsidiary of the Arab African Company for Investment and Development (AACID), is a leading solar solution provider in Sudan. They specialize in PV infrastructure design, import, and installation, offering solar panels, inverters, and batteries. Their engineering department includes skilled electrical and electronic engineers, and they maintain a laboratory for testing and development, which likely supports the integration of distribution boxes in solar systems.
- 2. Radiance** Radiance delivers solar power solutions for clinics, farms, and schools across Sudan. They provide quality solar kits and components, including PV panels and associated electrical systems. Their EPC services suggest they can supply and install distribution boxes as part of complete solar installations.
- 3. ACO Sudan** ACO Sudan, formed in 2020 in partnership with Egypt's Arab Consulting Office and Sudanese MTWA International Investment, is a major solar distributor. They offer a wide range of solar components and have experience with large-scale installations, making them a potential supplier of PV distribution boxes for industrial and commercial projects.
- 4. Gold in Sun Sudan** Founded in 2022, Gold in Sun Sudan specializes in high-quality solar components and is an official distributor of brands like Longi, JA Solar, Trina Solar, and Deye. They provide solar modules, inverters, storage systems, and construction elements, which likely include distribution boxes for residential and commercial solar systems.
- 5. GLASHAUS POWER** GLASHAUS POWER focuses on energy storage and modular solar solutions, including containerized energy storage and distributed generation systems.
