

Supplier of fiberglass cable tray elbows

AI Overview

Top manufacturers of fiberglass cable tray elbows include ALOIS Composites, Oglaend System Group, Enduro Composites, EFG Composites, MP Husky, and ATKORE, all known for corrosion-resistant, durable, and customizable solutions.

Leading Manufacturers

- 1. ALOIS Composites** A European leader in fiberglass-reinforced cable trays, ALOIS Composites specializes in pultruded profiles designed for corrosive environments such as chemical plants, offshore platforms, and power utilities. Their elbows and fittings are engineered for high strength, lightweight installation, and seamless integration into complex electrical systems, reducing installation time and costs.
- 2. Oglaend System Group** A global supplier with decades of experience, Oglaend System Group provides fiberglass trays and elbows for oil & gas, marine, and industrial sectors. Their products are highly resistant to corrosion and fire, making them suitable for harsh offshore and chemical environments.
- 3. Enduro Composites** Dominating the North American market, Enduro Composites offers fiberglass-reinforced trays and elbows for utilities, transportation, and wastewater facilities. Their products feature excellent dielectric properties and high strength-to-weight ratios, ideal for high-voltage and coastal installations.
- 4. EFG Composites** EFG Composites manufactures a wide range of fiberglass cable tray accessories, including vertical and horizontal bend elbows, tees, and crosses. Their products are made from pultruded fiberglass sections with polyester or vinylester resin systems, UV stabilizers, and surfacing veils for superior corrosion resistance. They also offer customized solutions to meet specific industrial requirements.
- 5. MP Husky** MP Husky provides fiberglass cable tray systems with the strength of steel but lighter weight and corrosion resistance. Their elbows are manufactured using pultrusion technology with polyester or vinylester resins, meeting ASTM E-84 Class 1 flame rating and self-extinguishing standards. These products are suitable for offsh...
