

Swiss Trapezoidal Cable Tray Price List

AI Overview

Swiss trapezoidal cable trays typically range from CHF 50 to CHF 200 per meter, depending on material, size, and load capacity.

Pricing Overview

The cost of trapezoidal cable trays in Switzerland varies based on several factors:

- Material:** Galvanized steel, stainless steel (AISI 304L or 316L), and aluminum are common. Stainless steel trays are more expensive due to corrosion resistance and durability.
- Dimensions:** Width, height, and length affect price. Standard lengths are usually 2.5–3 meters, with widths from 100 mm to 600 mm.
- Load Capacity:** Trays designed for heavy-duty industrial use or long spans with minimal support brackets cost more.
- Standards Compliance:** Trays meeting IEC 61537 or UL certification may carry a premium.
- Accessories:** Bends, junctions, brackets, and covers add to the total cost.

Supplier Options in Switzerland

Distrelec Switzerland offers a wide range of cable trays and accessories with next-day delivery and expert advice, though specific trapezoidal tray prices are not listed online. Indupart stocks high-strength wire trays and trapezoidal systems in galvanized and stainless steel, suitable for extensive installations, with flexible bracket spacing and E-90 certification.

Recommendations

For accurate pricing: Request a quote from suppliers like Distrelec or Indupart, specifying material, dimensions, and load requirements. Compare multiple suppliers to account for delivery costs and availability. Consider bulk orders if installing long runs, as unit prices may decrease with volume. By considering these factors, you can estimate the cost and select the most suitable trapezoidal cable tray system for your project in Switzerland.
