

Taichung Electric Cable Tray Prices

AI Overview

Electric cable tray prices in Taichung vary widely depending on material, type, and size, typically ranging from NT\$500 to NT\$3,000 per 2.4-meter section for standard trays.

Price Overview

Cable tray costs are influenced by material, design, and load capacity. Common types include:

- Ladder trays:** Strong, durable, ideal for heavy-duty installations; prices for hot-dip galvanized steel ladder trays are generally around NT\$500–NT\$1,500 per 2.4-meter section depending on thickness and load rating.
- Perforated trays:** Provide moderate ventilation and protection; suitable for commercial buildings and HVAC systems; prices typically range from NT\$700–NT\$2,000 per section.
- Wire mesh trays:** Lightweight, easy to install, ideal for point-to-point cable runs in limited spaces; prices can range from NT\$600–NT\$1,500 per section.
- Solid-bottom trays:** Offer maximum protection from dust, water, and oil; often used in harsh environments; prices are higher, around NT\$1,500–NT\$3,000 per section.

Material Considerations

- Hot-dip galvanized steel:** Common, cost-effective, corrosion-resistant for indoor and outdoor use.
- Stainless steel (304 or 316):** Higher initial cost but excellent corrosion resistance, suitable for chemical plants, coastal areas, or food processing facilities.
- Aluminum:** Lightweight, corrosion-resistant, moderate cost, often used in industrial or outdoor applications.
- PVC or fiberglass:** Non-metallic options for environments requiring electrical insulation or chemical resistance; prices vary by thickness and size.

Factors Affecting Cost

- Tray length and width:** Standard sections are 2.4 meters; wider or longer trays increase cost.
- Load capacity:** Heavier-duty trays for large cable bundles cost more.
- Fittings and accessories:** Elbows, tees, reducers, and supports are priced per piece and can add 10–30% to total system cost.
- Customization:** OEM or factory-direct orders may reduce unit cost for bulk purchases but require minimum order quantities.
