

Temporary power distribution box with wheels

Overview

Temporary power distribution boxes and carts serve as hubs to connect electrical loads and have multiple outlets to distribute power. Porta-Safe® temporary power units provide 600/480V to 120/208/240V portable power for powerplant outages, chemical/ refinery plant turnarounds and industrial temporary power. Common applications include construction, outdoor. Porta-Safe® temporary power centers are portable electrical distribution centers that step-down plant site power from 600/480 VAC to usable 240/208/120 VAC providing power for welding, power tools and lighting with GFI protected 120/240V receptacles for all of your outage and turnaround power. Facilitate portable power distribution in various environments with our 2 Wheel Transformer Power Center. Common applications include construction, outdoor. The 75 kVA Juice Box is our response to this problem in the most compact, maneuverable, and ruggedly durable frame we could imagine. Exceptionally mobile, it easily passes through standard single doorways, and the industry-exclusive zero turn radius casters allow you to easily maneuver around tight.
