

Test Fiber Optic Cable Price

AI Overview

Fiber optic testing cables, such as test reference cords and OTDR launch cables, typically range from \$50 to over \$500 depending on type, length, and quality.

Overview of Fiber Optic Testing Cables

Fiber optic testing cables are essential for verifying network performance, troubleshooting faults, and certifying fiber installations. Common types include:

- Test Reference Cords / Patch Cords:** Used to connect testing equipment to the fiber network for accurate measurements. Available in single-mode or multimode, with various connector types (LC, SC, ST) and lengths.
- OTDR Launch Cables:** Longer cables used to allow OTDR devices to measure the entire fiber link accurately, especially near the start of the fiber run.
- Visual Fault Locator (VFL) Cables:** Shorter cables used with VFL devices to locate breaks, bends, or faulty connectors.

Price Range

- Short multimode patch cords (1-5 meters): Approximately \$50-\$100 per cable.
- Single-mode test reference cords (1-10 meters): Typically \$100-\$200, depending on connector type and quality.
- Long OTDR launch cables (50-100 meters): Can range from \$200 to \$500 or more, especially for high-precision, low-loss cables used in certification testing.
- Specialty or custom-length cables: Prices vary widely based on length, fiber type, and connector configuration.

Where to Buy

- Mouser Electronics:** Offers Test Reference Cord Series with datasheets and inventory for immediate purchase.
- Fluke Networks:** Provides certified fiber testing products and compatible cables for professional network testing.
- RS Components:** Supplies a range of fiber optic testers and cables from brands like Fluke, Greenlee, and Tempo.
- Fiber Savvy:** Offers OTDR testers, VFLs, and associated test cables with support for certification and troubleshooting.

Tips for Purchasing

- Choose the correct fiber type (single-mode or multimode) for your network.
- Ensure connector compatibility with your testing equipment.
- Consider low-loss, high-quality cables for accurate measurements, especially for certification or O...
