

View prices for Dutch fiberglass cable trays

AI Overview

Fiberglass cable trays in the Netherlands typically range from \$20 to \$50 per meter, depending on specifications, supplier, and order volume. Price Overview Fiberglass cable trays, designed for highly corrosive or outdoor environments, are among the more specialized cable management systems in the Dutch market. The average price per meter for fiberglass trays generally falls between \$20 and \$50, influenced by factors such as tray width, load capacity, surface finish, and customization options (e.g., perforated or solid-bottom designs) (ApexTray) . Bulk orders or project-specific contracts can reduce the per-meter cost significantly. Factors Affecting Pricing Material and Coating: Fiberglass offers corrosion resistance and durability, making it more expensive than standard steel or aluminum trays (IndexBox) . Tray Type: Ladder-type or solid-bottom fiberglass trays may cost more than perforated or wire-mesh alternatives due to structural requirements (RS Online) . Supplier Location and Sourcing: Dutch manufacturers or EU-based suppliers often provide shorter lead times and compliance with EU environmental standards, which can slightly increase costs compared to imports from Asia (IndexBox) . Customization: Custom lengths, widths, or integrated fittings can raise prices, while standard catalog items are more cost-competitive (ApexTray) . Market Dynamics: Prices fluctuate with raw material costs, energy prices, and construction demand in the Randstad region, where most commercial and industrial projects are concentrated (IndexBox) . Supplier Options Local Dutch Manufacturers: Volza lists 72 verified ladder and cable tray suppliers in the Netherlands, including those offering fiberglass trays, with shipment-level pricing and direct contact for negotiation (Volza) . Online Retailers: RS Online provides a range of cable trays suitable for commercial and industrial applications, i...
