

What companies use electrical distribution boxes

AI Overview

Wieland, Schneider Electric, Rittal, Hammond Manufacturing, ABB, and Lucy Electric are leading companies specializing in electrical distribution boxes. Key Companies and Their Offerings

Wieland provides decentralized and pluggable electrical installation solutions, including distribution boxes for power, signal, and I&C applications. Their products are designed for harsh environments and smart building applications, offering flexibility and optimized construction processes through prefabrication and configuration.

Schneider Electric is a global leader in energy management and automation, offering a wide range of electrical enclosures and distribution boxes for industrial, commercial, and residential sectors. Their solutions integrate sustainability, energy efficiency, and advanced automation technologies.

Rittal manufactures electrical enclosures for power distribution, IT infrastructure, and industrial automation. Their products are designed for indoor and outdoor use, providing protection against dust, moisture, and temperature variations.

Hammond Manufacturing specializes in high-quality electrical enclosures, racks, cabinets, and transformers. They offer both standard and custom solutions suitable for data centers, outdoor installations, and hazardous areas.

ABB provides durable electrical boxes and enclosures, along with automation products such as control systems, AC/DC drives, and robotics. Their solutions support modular electrification, substations, and distribution automation.

Lucy Electric offers ABC Distribution Boxes for aerial bundled conductors, capable of handling 1 or 3 phase 230/400V with a 200A rating. Their units are UV-resistant and suitable for pole or wall mounting, ensuring reliable power distribution.

Additional Notable Providers

Hammond Manufacturing – versatile enclosures for industrial and commercial use.

E-Abel – specializes in weldi...
