

What is the price of Asian trapezoidal cable trays

AI Overview

Asian trapezoidal cable trays typically range from \$0.80 to over \$76 per unit, depending on material, size, and purchase volume.

Pricing Overview

The cost of trapezoidal cable trays varies significantly based on material, size, and supplier. For industrial and bulk purchases from Asian manufacturers, prices can start as low as \$0.80 per unit for basic models and go up to \$76 or more for larger, high-quality trays made from stainless steel, aluminum, or fireproof FRP materials. Retail or smaller-scale purchases may be higher due to packaging and shipping costs.

Factors Affecting Price

Material: Stainless steel and aluminum are common, with stainless steel generally costing more due to durability and corrosion resistance.

Size and Load Capacity: Larger trays or those designed for heavy-duty industrial use command higher prices.

Certifications: ISO 9001, CE, SGS, and other quality certifications can increase cost but ensure compliance and reliability.

Purchase Volume: Bulk orders from manufacturers or B2B platforms like Alibaba often reduce per-unit costs significantly.

Customization: OEM or custom designs tailored to specific project requirements may increase the price.

Regional Pricing Example

In the Philippines, cable trays (including trapezoidal types) are priced between ₱1,310.24 and ₱5,307.10 depending on material and size. This reflects typical Asian market pricing, which can vary slightly by country and supplier.

Buying Tips

Factory Direct or Wholesale: Purchasing directly from manufacturers in China or other Asian countries can provide the most competitive pricing.

Consider Material and Application: Choose trays that meet your load, environmental, and safety requirements to avoid future replacement costs.

Request Quotes: For large projects, request quotes from multiple suppliers to compare prices and shipping terms.

Overall, Asian trapezoidal cable trays offer a wi...
