

Where are the fiber optic cable factories in Sri Lanka

AI Overview

Yes, Sri Lanka has domestic fiber optic cable manufacturing facilities, including companies like T&G Lanka and ACL Cables PLC. Key Manufacturers and Capabilities T&G Lanka operates modern production facilities for fiber optic patch cables and connector assemblies, ensuring high-quality products with minimal signal degradation through rigorous inspection and testing. They provide turnkey solutions, from component procurement to final functional testing, supporting both large-volume production and custom orders for telecommunications and offshore applications. ACL Cables PLC is the largest cable manufacturer in Sri Lanka, producing a wide range of high-quality cables, including those suitable for fiber optic applications. The company is recognized for innovation and a significant market presence in the cable industry. Other notable companies include DCL Engineering (Private) Limited, which offers structured cabling solutions including fiber optic systems, and Hyperjet Technologies (Pvt) Ltd, which specializes in fiber optic connections and FTTH solutions. T&G Genex also maintains manufacturing capabilities at multiple locations and collaborates with global OEM/ODM partners to produce fiber optic and networking hardware tailored to regional needs. Industry Overview Sri Lanka's fiber optic industry supports both domestic and international telecommunications infrastructure. Companies not only manufacture cables but also provide network testing solutions, such as Optical Time Domain Reflectometers (OTDRs), to ensure quality and reliability of installations. The presence of these facilities indicates that Sri Lanka is capable of producing fiber optic cables locally, reducing reliance on imports for telecom projects and enabling customized solutions for local and regional markets. In summary, Sri Lanka has a well-established fiber o...
