

Where to buy cheap electrical distribution boxes in Norway

AI Overview

Elbilgrossisten AS and Farnell Norway are two accessible suppliers of electrical distribution boxes in Norway, offering a range of products suitable for various applications. Key Suppliers Elbilgrossisten AS offers junction boxes made from durable materials such as polycarbonate, PVC, and metal, with protection ratings from IP20 to IP68. Their products are designed for both indoor and outdoor use, with flexible cable management and easy assembly features, making them suitable for professional installations and EV charging systems. Farnell Norway stocks a wide selection of junction boxes from top manufacturers like Hylec, Amphenol Wilcoxon, Multicomp Pro, PRO Elec, and Phoenix Contact. They provide fast quotes, same-day dispatch, and technical support, which can help reduce overall project costs. Other companies in Norway, such as Efa Elektro AS, WE Energy AS, and ON Energi, specialize in electrical distribution solutions and components, including distribution blocks and circuit breakers, but pricing information is typically available only upon request or through direct quotes.

Tips for Finding the Cheapest Option

- Compare Online Catalogs:** Check Elbilgrossisten and Farnell Norway for product specifications and prices. Farnell often provides bulk discounts.
- Request Quotes:** Contact suppliers like Efa Elektro AS or WE Energy AS for project-specific pricing.
- Consider Material and IP Rating:** Lower IP ratings and simpler materials (PVC vs. metal) can reduce costs.
- Bulk Orders:** Ordering multiple units often reduces the per-unit price.
- Check Local Distributors:** Smaller regional suppliers may offer competitive pricing for standard junction boxes.

By combining online price checks with direct supplier quotes, you can identify the most cost-effective electrical distribution boxes for your project in Norway.
