

Which brand of KVM switch is good

AI Overview

Top KVM switch brands include Level1Techs, AV Access, UGREEN, and Adder, each offering reliable performance for different setups and professional needs. Level1Techs is highly regarded for dual-monitor KVM switches with DisplayPort 1.4 support, 10Gbps USB-C interfaces, and resolutions up to 8K at 30Hz or 4K at 120Hz. Users praise its durability, feature set, and customer support, making it ideal for IT professionals and developers who need high-quality video and fast switching between multiple computers. AV Access offers the iDock series, which combines KVM functionality with docking station features. Models like the iDock C20 support dual HDMI monitors, USB peripherals, Ethernet, and power delivery, making them perfect for work-from-home setups or users managing multiple USB-C laptops. The iDock D23 supports triple-monitor setups with high refresh rates, suitable for gaming or professional workflows. UGREEN provides DisplayPort and HDMI KVM switches that are versatile and budget-friendly. Their products support 8K@60Hz or 4K@60Hz, multiple USB devices, and easy switching via buttons or remote control. UGREEN switches are praised for low latency, stable performance, and compatibility with both USB-A and USB-C devices, making them suitable for home offices, gaming, and IT labs. Adder specializes in enterprise-grade, IP-based KVM switches like the INFINITY 4000 4K, which support dual monitors, 4K/5K resolutions, and multi-gigabit Ethernet. These switches are scalable and ideal for large IT environments, allowing remote access and management of hundreds of computers with high reliability. When selecting a KVM switch, consider:

- Number of computers and monitors: Single-user vs. multi-user setups.
- Video resolution and refresh rate: Important for gaming or professional graphics work.
- USB and peripheral support: USB 3.0/3.1 or USB-C for fast data transfer.
- Remote access needs: IP-based switches for enterprise environments.
- Budg...
