

Which manufacturers produce good fire protection distribution boxes

AI Overview

Leading manufacturers of fire protection distribution boxes include Spelsberg, Palazzoli, EMITeg, CE-TEK, and Protec, offering certified, high-quality, and customizable solutions for fire safety and electrical continuity. Key Manufacturers and Offerings

Spelsberg is renowned for high-quality cable junction and surface-mounted distribution boards designed for fire protection. Their WKE fire protection products are tested according to DIN 4102 part 12, with VDE and building supervisory approvals. They provide electrical intrinsic fire resistance from 30 to 90 minutes (E30 to E90), using heat- and fire-resistant materials from reputable suppliers.

Palazzoli offers the FIREBOX fire-resistant junction box, certified to DIN 4102-12 and IEC 60331-1, ensuring electrical functionality during fires. FIREBOX boxes maintain operation at extreme temperatures up to 1000°C for 90 minutes and 830°C for 120 minutes, with IP66/IP67 protection for outdoor use. They are widely used in schools, hospitals, industrial plants, and public buildings.

EMITeg provides a comprehensive range of Electrical & Fire Boxes for commercial, industrial, and institutional environments. Their enclosures are engineered to exceed international safety standards, offering protection against environmental hazards, unauthorized access, and operational risks. EMITeg also specializes in customized solutions, including specialized dimensions, internal configurations, and integration with building management systems.

CE-TEK manufactures rugged electrical junction boxes for hazardous areas in industries such as oil & gas, petrochemical, and food processing. Their enclosures comply with the latest European standards and are available in various materials and sizes, designed for high-risk environments where flammable liquids, gases, or dust are present.
