

Wire splice terminal box

Overview

Find reliable splice boxes for safe wire connections. Our portfolio includes a variety of terminals and splices, including ring terminals, spade terminals, PCB terminals, receptacles, pin terminals, insulated quick disconnects, wire terminals, crimp terminals, solder terminals, and. Whether you need to splice 30 AWG solid copper magnet wire or 4/0 stranded aluminum wire, our broad range of splices allow you to splice solid or stranded wire - with copper, aluminum, or a combination of both. We offer crimp, insulation displacement connection (IDC), and other wire splicing types. Wire splice connector terminals are devices that provide an insulated or non-insulated point of electrical connection for two or more conductors secured by crimping, soldering, friction, screw, IDC or a wire nut (twist on). Use a crimping tool (included with some kits) to install wire. Fully insulated terminals have a connection tab that's completely covered. □Quick Wiring-Splitter Box□Used with a special non-stripping connector, it can realize quick operation wiring and divide one power supply signal into four.
