

Yemen Micro-module Cabinet Manufacturer

AI Overview

GEYA and HLC Sheet Metal Factory are key providers of micro-module and low-voltage cabinets in Yemen, offering IEC-compliant, customizable solutions with local assembly support.

Key Manufacturers in Yemen

- GEYA Yemen Dealer** Geya provides low-voltage distribution cabinets for industrial applications in Yemen, particularly in Sana'a. Their cabinets are IEC-compliant and designed for unstable utility networks, offering multi-level protection with molded case circuit breakers (MCCBs) and miniature circuit breakers (MCBs). The cabinets are assembled, wired, and commissioned locally by Geya's authorized Yemen dealer, ensuring local lead times and after-sales support. The modular design allows future expansion for PV systems, monitoring equipment, or automatic transfer switches without major rewiring.
- HLC Sheet Metal Factory** HLC specializes in energy storage cabinets and sheet metal enclosures. They provide custom design, processing, and large-scale manufacturing of modular cabinets, including energy storage solutions. HLC emphasizes fast delivery, high-quality fabrication, and the ability to customize cabinets according to client specifications, making them suitable for industrial and renewable energy applications.
- Elsteel (International Supplier with Regional Reach)** While not based in Yemen, Elsteel offers modular enclosures compatible with all breakers and flexible configurations. Their solutions include low-voltage enclosures, motor control centers, and terminal boxes. Through global distribution networks, Elsteel products can be sourced for Yemeni projects requiring advanced modular systems.
